

The following questions were received from shareholders ahead of the General Meeting held on 3<sup>rd</sup> April 2020 ("the Meeting"). These were the only questions relevant to the business of the Meeting. Other questions received, which were not relevant to business of the Meeting, will be addressed in our next Trading Update. The Company's response is in bold:-

1. Can you explain what business is left in the UK? Can you give me a feel for the turnover and does the region cover its costs or profitable?

**We retain our UK "software as a service" business, which provides various software applications designed for the promotional product distributor, including design, product search, web site tools and our comprehensive ERP system called "Promoserve". Annual revenue in 2018 for these UK operations was £1.7m. Our software development team is also retained in the UK as are our PLC costs.**

**Operationally the UK business breaks even after covering non capitalised systems development costs (which support both the US and the UK) but before PLC costs.**

2. What is the size of overhead savings to ALT following the disposal?

**ADP overhead in the year to 31 December 2018 were £1.9m.**
